

Our best-selling full body harness for suspension and work positioning activities. The Golden Top Plus offers all of the functionality of our most advanced rope access harness models in a minimalist, cost effective package. Ventral attachment features two loops: the upper loop is for attaching a chest harness and chest ascender and the lower loop holds the ventral D-ring for attaching lanyards and rope tools.

Supplied with the HMS Belay Lock connector that features an anti-rotation system. Equipped with a keeper strap for securing a chest ascender in a streamlined way. STS automatic buckles on the leg loops.

5 steel attachment points: 1 sternal and 1 dorsal for fall arrest, 1 ventral for suspension and 2 side for positioning and restraint.

Equipped with NFC TRACK tag for digital identification.

2 sizes.

C.A.M.P. presents in this catalog a **complete solution for the digital management of PPE**, both for allocation to users and for periodic inspections: the **NFC TRACK hardware tags on the products** work seamlessly with the **G.T.S. - Gear Tracking System software** to make the system very intuitive and easy to use.

**NFC TRACK chips are installed on many C.A.M.P. products** (harnesses, helmets, Retexo lanyards). They **can also be attached directly on any PPE** by the user, so that the user can assign the PPE data to the chip by means of the C.A.M.P. G.T.S.

**NFC (Near Field Communication) technology** is now present on most smartphones and used every day for smart payments. Today, it also represents the future for the individual identification of products.

The **HF RFID** (High Frequency Radio Frequency Identification) communication system on which NFC is based allows the C.A.M.P. NFC TRACK to be easily read using any latest generation smartphone or for professionals using a PC reader.

**NFC TRACK chip installed!**

## - G.T.S. - GEAR TRACKING SYSTEM

G.T.S. allows professionals to easily manage PPE both via the smartphone app (available on Play Store and Apple Store) and from a PC via the web app.

Two different packages allow for carrying out periodic inspections and also for managing the company allocation of PPE to its employees.

The database of **G.T.S.** includes the **technical information of all C.A.M.P. products** for work at height and a **large number of other products** posted by other users of the community with publicly available information.
